**UNEXPECTED HAT**

We all know Norm Roberts as a past administrator, great taco chef, and odds-maker for the Moose Races (also known as Stormin' Norman during the races). But did you know that "our own Norm" is an author of ebooks? His latest book is The Pearl of Africa. Set in 1888, this exciting story has it all...enough adventure to keep you anxiously tapping your way (remember - it's an ebook!) through the "pages", and enough detail to make you feel like you are traveling across Africa with the very likeable main characters. Sometimes the suspense is enough to have you biting the tips of your French manicure and once in a while the passion will make your cheeks turn red! It's fun reading for the hot days of summer and I'm sure Norm would welcome any comments about his book. By the way...Bonnie did a great job designing the cover!
